Re: Notification Letter for CLI-CR 12-4.81 Antioch Road Reconstruction Project (PID 119808)

Dear Neighbor:

The Clinton County Engineer's Office, in cooperation with the Ohio Department of Transportation (ODOT), is proposing this roadway reconstruction project along Antioch Road (County Road 12) in Green Township, Clinton County, Ohio. The proposed work involves reconstructing approximately 2.3 miles of Antioch Road beginning approximately 500 feet west of Dehan Road and ending at the eastern limit of New Antioch (about 1,000 feet east of Vine Street). Improvements also include widening the roadway lanes and shoulders, modifying ditch slopes, removing fixed objects to increase visibility along the roadway, and adding wider edge line striping and rumble strips. The project will also rehabilitate two bridges over Cowan Creek and a tributary to Cowan Creek. Construction is estimated to begin in August 2026 and be completed in September 2027.

On behalf of the Clinton County Engineer's Office, we are writing to advise you that it may be necessary for personnel from Lawhon and Associates to enter upon adjacent properties within the next 30 days to obtain specific field data needed in connection with the proposed project. Sections 5517.01 and 163.03 of the Ohio Revised Code authorize such entries but also require that reimbursement be made for any actual damage resulting from such work. It is not anticipated that any physical sampling or vegetation clearing will be required; however, if any valuable vegetation must be cleared to accomplish the work needed, you will be notified and informed as to the procedure to follow in preparing a claim for reimbursement.

Please note that these personnel will not be able to give any information or answers to your questions. The staff will simply be collecting data to complete their environmental studies. If at any time you feel that our representatives have not given proper attention to your property, or should you have any questions regarding this project, please contact our office via the information below.

Adam Fricke
