

OFFICE OF THE  
**CLINTON COUNTY ENGINEER**

*JEFFREY B. LINKOUS, P.E., P.S.*

January 26, 2024

**Re:** Notification Letter for CLI-CR 10-0.41 Clarksville Road Reconstruction Project (PID 115786)

To Whom it May Concern:

The Clinton County Engineer's Office, in cooperation with ODOT, is proposing this roadway reconstruction project to reconstruct approximately 6,300' of Clarksville Road (County Road 10) in Vernon Township, Clinton County, Ohio. The project involves reconstructing CR 10 by improving horizontal and vertical curves at several locations, widening the pavement and unpaved shoulder, and removing fixed objects from the clear- zone. Work also includes associated striping, RPM, and signing safety improvements.

This project will require permanent and temporary right-of-way acquisition. Construction is estimated to begin in July 2025 and be completed by July 2026.

The proposed work will require the closure of Clarksville Road for approximately 150 days. Traffic will be detoured using Creek Road to U.S. 22/SR 3 to Beechgrove Road. Detour information will be posted in advance of the roadway closure. Access shall be maintained to all adjacent properties for the duration of the project.

As a service provider, we wish to inform you about this project. The Clinton County Engineer's Office is seeking comments from the public about the social, environmental, and economic impacts of this proposed project. Environmental impacts include those involving archaeological, architectural, maintenance of traffic/access to properties, ecological resources, hazardous materials, and the general location of the project. Please provide comments or concerns you may have by February 26, 2024, to:

**Adam Fricke**  
**Deputy Engineer**  
**1326 Fife Avenue**  
**Wilmington, OH 45177**  
**Office Phone: (937) 382-2078**
