**CLINTON COUNTY ENGINEER**

*JEFFREY B. LINKOUS, P.E., P.S.*

July 5, 2024

**Re:** Notification Letter for CLI-CR 12-4.81 Antioch Road Reconstruction Project (PID 119808)

To Whom it May Concern:

The Clinton County Engineer's Office, in cooperation with the Ohio Department of Transportation (ODOT), is proposing this roadway reconstruction project along Antioch Road (County Road 12) in Green Township, Clinton County, Ohio. The proposed work involves reconstructing approximately 2.3 miles of Antioch Road beginning approximately 500 feet west of Dehan Road and ending at the eastern limit of New Antioch (about 1,000 feet east of Vine Street). Improvements also include widening the roadway lanes and shoulders, modifying ditch slopes, removing fixed objects to increase visibility along the roadway, and adding wider edge line striping and rumble strips. The project will also rehabilitate two bridges over Cowan Creek and a tributary to Cowan Creek.

This project will require permanent and/or temporary right-of-way acquisition. Construction is estimated to begin in August 2026 and be completed in September 2027.

The proposed work will require the closure of Antioch Road for approximately 150 days. Traffic will be detoured using School Road to State Route 73 to State Route 729. See the attached Detour Map. Detour information will be posted in advance of the roadway closure. Access shall be maintained to all adjacent properties for the duration of the project.

As a service provider, we wish to inform you about this project. The Clinton County Engineer's Office is seeking comments from the public about the social, environmental, and economic impacts of this proposed project. Environmental impacts include those involving archaeological, architectural, maintenance of traffic/access to properties, ecological resources, hazardous materials, and the general location of the project. Please provide comments or concerns you may have by August 5, 2024, to:

**Adam Fricke**  
**Deputy Engineer**  
**1326 Fife Avenue**
